## Legion Field Day Draws Big Crowd

Though the weather did not look any too promising there was a big crowd at the Butte on Wednesday afternoon for the field day and sports given by the Canadian Legion.

The outdoor play, "Squatters" was presented by members of the local branch and much appreciated by the large audience. Jack Robertson in the comedy role, assisted by Jack Thomas and the "Old Lady" caused lots of amusement and the cowboys and Indians added color to the episode.

Softball was the big sports attraction and 14 teams played in two competitions.

In the first round senior competition Bowden beat Didsbury 8-6; Westcott beat Melvin 4-2; Didsbury High beat Olds 10-5; Westenders a bye.

In the second round Bowden got the best of Westcott 11-7; Didsbury High beat Westenders 16-7.

In the final the schoolboys beat the Bowden team all the way, the score being: Didsbury High 10, Bowden 5.

In the public schools competition Rose-Centre beat Neapolis; Elkton beat Westcott; Rugby beat Clovermount in the first round; Didsbury had a bye.

In the semi-finals Didsbury beat Rose-Centre and Elkton got the best of Rugby.

Didsbury won in the final against Elkton.

In the evening Didsbury and Olds met in the first game of the Rosebud Football League.

The game opened with Didsbury playing two men short and Olds took advantage of this opportunity to drive in a couple of goals in the first few minutes. The balance of the game was fairly even, Olds winning by 5-3. Davies was the star for Didsbury, scoring all three goals.

## Leases Flour Mill.

Mr. Simon Megli has leased the Rosebud flour mill from Mr. M. Weber and will operate the mill in future.

Mr. Megli has had an extensive experience as a miller in Kansas and for some time was miller at the Sunnyslope mill and helped to build that mill. He also owned and operated the electric light plant at Three Hills.

He is at present overhauling the mill and having the rolls recorruated and expects to be able to operate in about two weeks.

Mr. Weber retains his interest in the Rosebud Pancake Flour and cotton products which will be manufactured at the mill.

## Evangelical Church Annual Meeting

At the annual congregational meeting of Zion Evangelical Church held at the church last Wednesday evening, G. H. Liesemer, W. W. Snyder, Russell Berscht, and J. L. Tuggle were elected trustees.

Those elected stewards were: J. V. Berscht, Russell Berscht, E. N. Boettger, Gordon Boettger, M. B. Clemens, Chas. Diekau, Mose Dippel, Geo. Dippel, D. Dippel, G. O. Freg, O. A. Kreuger, G. H. Liesemer, H. M. Reiber, Wm. Rupp, W. E. Rieder, W. W. Snyder, F. S. Spies, J. L. Tuggle, Verne Wrigglesworth.

The following were appointed as ushers: J. V. Berscht, G. O. Freg, H. C. Rennie, Gordon Boettger, and Verne Wrigglesworth.

D. Dippel was re-elected parsonage trustee.

The reports showed the church to be in a better position financially than a year ago.

An invitation was extended to the annual conference to meet in Didsbury next year.

## LOCAL & GENERAL

Mr. H. A. Kidney, inspector of municipalities visited the municipal offices in town this week.

Miss Grace Hunsperger and Miss Madlin Snyder left Monday for a month's visit to Kitchener, Ont.

Miss Amelia Turner, of the C.C.F. will speak at the Lone Pine Hall on Monday evening June 12th at 8:30. Lunch will be served.

A dance will be held in the Rosebud school on Friday June 16th. Admission 25c., lunch included. Snappy music.

Mr. H. W. Chambers left Monday to attend the annual convention of the Alberta Pharmaceutical Association. Over 75 druggists from all parts of Alberta were registered for the convention.

It is reported that Mr. Sid Summers is preparing to go into the circus business. One of his mates has presented him with a regular black and white pinto foal. Quite a few visitors are going to see this unusual colt.

A three-act comedy, "The Dutch Detective" will be produced by the Young People's Society of Zion United Church, Calgary, at the Opera House on Saturday June 10 at 9 p.m. Admission: Adults 25c. and children 15c.

Jim Kirby, Tommy Johnson and Clint Reiber went after the finny tribe on Sunday. Clint proved to be the fisherman—he caught one. They say that when the hook and line don't work he uses both hands and feet.

The crabapple tree in Mr. W. A. Austin's yard was in full bloom the beginning of the week. It was covered with a greater profusion of blossom than for years. This beautiful tree was planted about thirty years ago by the late Mr. Charles Peterson and is a proof that apple trees can be grown in this district.

Messrs. A. Brusso and A. McNaughton will attend the convention of the Alberta Association of Municipal District Secretaries to be held at Edmonton Thursday and Friday of this week. The principal business of the convention will be the discussion of the working-out of the Tax Consolidation Act.

In addition to the dairy calf club organized in Didsbury on Monday evening, the district supervisor, Mr. W. J. Elliott has organized swine clubs at Swallow and Three Hills. These are two very strong clubs, with twenty-one members at each point. The Swallow club has chosen Tanworths, while the Three Hills club has Volkathires.

## The Auto Park.

The appearance of the south end of Main Street has been much improved by the cleaning-up and painting of the buildings at the auto camp.

It has been made into quite an attractive spot and many favorable comments have been heard. There is no doubt that the camp will be greatly appreciated by many tourists during the season.

Much credit is due Councillors Keith and Fleury and Constable Kercher in making this improvement.

## BORN

To Mr. and Mrs. J. W. Halton on Wednesday May 31st 1933 a daughter Shirley Mae.

## Court of Revision.

A court of revision of the assessment roll was held at the council meeting Monday evening.

Appeals were made by the Bawlf Elevator, Federal Elevator and the Bolder Estate against assessment of town property, by Messrs. Colling Bros. on property in the school district and by Mr. J. W. Phillipson against his business tax.

The assessment of the Bolder Estate was reduced \$150 on account of the building having been removed while the assessment on the other properties were sustained.

## Obituary.

The death of Mrs. Anna Warkentin, wife of Mr. Geo. Warkentin, occurred Friday June 2nd after a protracted illness.

Mrs. Warkentin was 59 years of age and was born in Russia. She came to Canada with her family in 1926 and lived on the Burns Ranch for three years and since then has resided in town.

She is survived by her husband; three daughters, Mrs. Peter Esau, Mrs. J. Warkentin, Mrs. J. W. W. Wall; three sons, Abram Weiss of Pitt Meadows, B.C. and Henry and Peter Weiss, of Didsbury.

The funeral services were held on Monday at the M.B.C. Church and interment took place at the Burns Ranch cemetery.

## WEEKLY JOKE

Billy (at dinner): "Are caterpillars good to eat?"  
Papa: "I haven't taught you better than to mention such things at the table?"

Mama (after pause): "Why, Billy, did you ask that question?"  
Billy: "I just saw one on papa's lettuce, but it's gone now!"

## Dairy Calf Club for Didsbury.

An enthusiastic meeting was held in the High School on Monday evening in the interests of the organizing of a dairy calf club. Representatives were present from a wide area and after the matter had been explained by W. J. Elliott, district supervisor, the meeting enthusiastically decided to form a club.

It was decided that any dairy calf whether purebred or grade would be eligible and while ten signed up as members the club will accept others up to twenty members, as this would seem to be a desirable quota to start with. From indications the full membership will be reached shortly. Any who would like to be considered should see any other mentioned below before June 15th.

Bird Clarke was unanimous choice club superior, while Delbert Levgood is the club's first president and Lorne Liesemer is secretary.

The plan is for the club to meet monthly between now and September, when the club fair will be held. At this fair a team of two will be chosen for judging ability to represent the club in competitions for the provincial championship.

The club has the backing of the Didsbury Agricultural Society and the U.F.A. There was a goodly number of interested farmers and their sons and daughters present. Roy McNaughton, president of the U.F.A. occupied the chair.

## Bride-Elect Honored.

A "Treasure Hunt" kitchen shower was held May 23rd at the home of Grace Hunsperger, honoring and surprising Miss Alma Folkman, a June bride-elect.

The house was beautifully decorated with pink, green and white streamers, artificial flowers and scolding bells. The dining room table was the centre of attraction, being charmingly decorated. Music and games were enjoyed by all and later a light lunch was served.

Miss Folkman was the recipient of many beautiful and useful gifts. There were about thirty guests present.

A delightful shower was held at the home of Mr. and Mrs. Herman Danzberg on Saturday evening last in honor of Miss Alma Folkman, a June bride-elect.

About two hundred guests gathered on the front lawn, where many lovely gifts were presented to Miss Folkman. Miss Joyce Dageford and Master Alex Dageford, dressed as bride and groom, conveyed the gifts in a tiny decorated wagon to the table on the lawn.

Games, music and special songs were enjoyed by all and sandwiches, cake and coffee were served later in the evening.

## The International Way

The more extensively a person reads apparently authoritative articles and books dealing with present day economics; the more intensively he studies, investigates, and seriously ponders over political, economic and social problems with an open and discerning mind, the more such a person becomes convinced there is, after all, only one way by which relations for existing problems and difficulties can be reached—and that is the international way.

Consider the Canadian position as an example, and the situation in this country is in most respects similar to that existing in other countries throughout the world.

This Dominion is a land of great natural wealth; its people are intelligent, progressive, and anxious and willing to work. They have enjoyed a high standard of living in the past, and desire it to continue. They possess political and religious freedom, and have inaugurated and maintained social services for the benefit, not only of individuals but for whole communities and the nation.

Nevertheless, at the moment, the development of natural resources of Canada, our great reservoirs of potential wealth, is at a standstill, while hundreds of thousands of men and women remain unemployed and approximately one and a half million of the population are subsisting on relief provided by the State. The standard of living is falling, not rising; social services are being abolished or curtailed; the burden of public debt is growing every day, and heavier and ever heavier taxes are being imposed.

What is wrong? Is Canada, and the Canadian people, alone to blame? Are they even ready to blame? Are our public men in Government, Parliament, Legislatures, Municipal Councils, our bankers and financiers; our captains of industry and transportation; our leaders in commerce and business and agriculture; our leaders in church and education—Are these chiefly responsible? Is it the system in vogue in Canada under which all our life activities and institutions have been operated and governed in the past, and under which great progress was made, responsible for the present backwardness?

Some short-sighted people will thoughtlessly say "Yes," and will try to convince others that the whole trouble lies in the system and that Canadians, if they will, can solve their own problems by their own action; that all they have to do is to change the present system, and create a new one based on an entirely different set of principles. And the same thing is being said in other countries.

This, however, is a superficial view. Suppose Canada could tomorrow create within its own borders an absolutely ideal 100% perfect monarchy, banking and credit system while other nations adhered to their present systems and methods, would that solve Canada's problems? Intelligent men and women realize it would not.

Suppose Canada tomorrow adopted absolute free trade with the world in an endeavour to again revive the exchange of commodities and once again set in motion all the great activities bound up in trade and commerce, while other nations adhered to their present policies, would that put Canada's unemployed to work and revive Canada's Agriculture? Again, the answer is most decidedly "No."

The solution for our present economic problems is not to be found in a complete change in the system now prevailing in Canada, that would merely result in still greater unsettlement, in confusion ending in chaos, and more widespread loss and suffering; but it is to be found in international action. It is only so it can be found.

But what Canada and the Canadian people can do, and ought to do, and, we believe, are striving to do, is to encourage such international action, and to create those conditions and ideas in the minds of the people of other nations that will make such international co-operation and action possible. This Dominion can show to the whole world that it is ready and eager to join hands with any other nation, or any group of nations, in the task of breaking down any narrow nationalistic ideas, suspicions and fears. Every opportunity that presents itself, and where they do not present themselves Canada should make them, no matter how small it may be should be quickly grasped and Canada should act without reserve, that it is prepared to go a long way in the direction of meeting other nations and peoples in providing needed solutions to existing problems.

Organized labor had the germ of the right idea in its international labor brotherhoods organized for mutual protection, but, unfortunately, even within these brotherhoods a selfish nationalism existed, with the result that organized labor in one country proceeded to support selfish trade policies designed to protect themselves but to do injury to their fellow workers in another country. The folly of this has been brought home to them in these years of depression, just as it has been brought home to the bankers and great world traders in all countries. Narrow nationalism simply won't work. That is what is fundamentally wrong with the prevailing system, the attempt of each nation to shut itself up in a watertight compartment away from all other nations, and in so doing is slowly but surely starting away to death.

The tearing down that is necessary, is the tearing down of the whole network of eye entanglements and barriers of one kind and another that the nations have erected against each other, the destruction that is called for is the destruction of the narrow nationalistic ideas and fears of people. Let the nations get off the by-paths of narrow nationalism and on to the broad international highways of the world, and the depression will pass like a mist before the rising sun, unemployment will give place to industrial and business activity everywhere, with the workers of one nation not begrudging work to other nations provided they are busy at work themselves, as they would be and the primary producers on farms, in forests, fisheries and mines will again enjoy adequate markets and remunerative prices for the things they produce.

The international way is the world's highway; the international method is the Twentieth Century Method.

### Academy Rejects Painting

A painting by Mary Symons, entitled "The Last Supper," and depicting Christ and His apostles in lounge suits, collars and cravats, seated at a modern table, has been rejected by the Royal Academy of Britain.

Old Roman ruins at York, England, are being floodlighted to accommodate night visitors.

The oldest ski in the world is in a museum in Stockholm, Sweden. It is believed to be 3,600 years old.

### Needle and Pin Industry

Little English Town Supplies Practically All World Requirements.

At a recent banquet of the Needle-makers' Company the Master stated that last year Great Britain manufactured 750,000,000 needles. Most of them were made at Redditch, in Worcestershire. Nearly all the needles, all the pins and all the fish-hooks in the world are made at Redditch. Nearly everybody in Redditch is employed making needles, pins and fish-hooks, and their ancestors have done so for hundreds of years. The Redditch factories are the most efficient in the world and are in an impregnable position.

If they turn out 750,000,000 needles a year, that means that in two and one-half years they make enough needles to give one to every human being on earth. Query: where do the billions of discarded needles go? The disposal of safety razor blades is an awkward problem. What about needles and pins? They must be put somewhere, else there would be no demand for hundreds of millions of new ones each year. In fifty years Redditch must produce enough needles and pins to carpet the earth and seven seas. Yet one scarcely ever sees a needle or a pin lying around. In fact a pin seems about the scarest thing imaginable sometimes when it is badly wanted.

Needles, pins and fish hooks are just one branch of manufacture that Great Britain stands supreme in. There are hundreds of others.—St. Thomas Times-Journal.

### New Fire Fighting Inventions

One Uses Only Water To Put Out Oil Fires

Some new fire-fighting inventions were described by Commander A. N. F. Firebrace, Divisional Officer of the London Fire Brigade, in a lecture before the Royal Society of Arts. One was a method of putting out oil fires with water only. Another was a Hungarian appliance which extinguishes small fires by pumping on to them bicarbonate of soda and carbon dioxide gas—the gas obtained by purifying and treating the exhaust gases of the internal combustion engine which propels the appliance. The system by which oil fires are put out with water alone has been evolved during the last year. It has received the approval of the Board of Trade for ship installations and has been used in some instances on shore, but so far it has only had a chance to prove its worth under test conditions. Water sprayers are so fitted that every space, concealed or otherwise, can be bombarded with spray under pressure. The bombardment of the surface of the oil breaks it up into a multitude of tiny globules, each surrounded by a thin film of water. This emulsion, as it is called by chemists, will not burn, since the flame only reaches the water film surrounding the oil globules. The surface of the liquid being this non-inflammable, the fire at once goes out.

### Gasoline Tax Refunds

Will Be Subject To A One Cent Deduction In Saskatchewan

Gasoline tax refunds to Saskatchewan farmers operating power machinery will be subject to a one cent deduction to cover the cost of administration effective as from January 1. Announcement of the inauguration of this policy was made at the beginning of the current calendar year was made by Hon. A. C. Stewart, Minister of Highways.

The policy is in line with that operative in Manitoba, Alberta and British Columbia where deductions to cover administrative cost are made.

The Prairie Field Crop Acreage

Over two-thirds of the field crop acreage of Canada is concentrated in the three prairie provinces, and most of this area is seeded to the grain crops, with wheat predominant. Thoroughly speaking, the specialized wheat areas cover the southern short-grass plains from the Red River Valley of Manitoba to the foothills of Alberta and attain their greatest width in central Saskatchewan.

An evening air service between London and Paris has just been inaugurated.

W. N. U. 1954

# EXTRA CORD PILES UNDER THE TREAD

GET your money's worth—buy Firestone—the tire that has everything to give you both long mileage and safe mileage. Only in Firestone can you get all these extra features which give you 25-100% longer tire life—at no extra cost:

AT NO EXTRA COST

- 1 TWO EXTRA CORD PILES UNDER THE TREAD—make the tire safe at any speed;
- 2 CUM-DIPPED CORDS with 58% longer flexing life;
- 3 NON-SKID TREAD—wider, deeper tread to give 25% more non-skid wear.

Worn tires are dangerous—Replace them now. Equip your car with the safest tires you can buy. See your nearest Firestone Dealer today.

AMAZING NEW GUARANTEE  
Firestone tires are now guaranteed for 12 months against blowouts, cuts, bruises, and all other road hazards except punctures—another good reason why you should buy Firestone.

### New Type Of Banana

Trinidad Produces Fruit Immune To Panama Disease

The discovery of a new type of banana at Port of Spain is expected to make economic history in Trinidad. Thomas Potter, the secretary of the Agricultural Society, told an audience the banana was of the same family as the local Canary Islands banana and was immune to "Panama disease," but was the same size and color as the Jamaica banana.

It promises to meet all requirements of the export trade and is described as the "banana of the future." A government committee recently recommended a grant of \$2,000 to develop banana exports from the colony. The Tropical College is now experimenting to find the best temperature for sea transport of bananas.

### A Valuable Penknife

The largest penknife in the world is now on show in London. It was made in 1851 and has 1,831 blades, each of which can be opened. Each blade is a perfect penknife. The knife weighs over three stone. An offer of \$7,500 for it has been refused.

Seed From Peace River  
Far-famed world championship wheat of the Peace River will be seeded in Newfoundland this season. Made up half of Reward and half of Marquis a hybrid from Wenlock. Alberta, has been forwarded to the Empire's oldest dominion. Much of the shipment came from the farm of Herman Treble, would champion wheat grower.

The United States is the largest consumer of asbestos in the world.

Java has an extensive back-to-the-city movement.

### Pains Around Her Heart

Tired Out After Doing Housework

Mrs. Henry Ranch, Mariel Lake, Alta., writes: "Last fall I had bad pains around my heart, and each morning, after doing a little housework, I seemed to get dizzy and feel all tired out."

Seeing that Milburn's Heart and Nerve Pills were good for these troubles I sent for a box, and after taking the Pills for a few days I felt a whole lot better. Since then I have had no return of the dizzy spells and pains around the heart."

For sale at all drug and general stores; put up only by The E. Milburn Co., Ltd., Toronto, Ont.

## Alberta Wheat Pool Praised

The Financial Post is of the opinion that the Alberta Wheat Pool's position is much stronger than that of the Saskatchewan and Manitoba pools. In an analysis of the Alberta Pool's financial position the Post points out that the balance sheet indicates a members' equity of close to \$4,000,000 and that there is a reasonable assumption that the provincial government appears safe from ultimate loss.

Congratulatory remarks are made regarding the method employed by the pool in presenting its statement, the summary being: "The very complete accounts which the pool has made public, and the manner of their presentation, makes examination of the situation easy." It is also mentioned that pool members in Alberta are in a much better position than pool members in either Saskatchewan or Manitoba.

Coming from such a source as the Financial Post, which has never been very friendly to the wheat pools, the Alberta pool members should feel encouraged over the situation surrounding their organization. It has generally been the feeling that the Alberta pool was somewhat more carefully operated than either of its sister concerns in Manitoba and Saskatchewan, and the Post's survey bears this out.

—Calgary Herald.

## Alberta Crop Report.

The unusual lateness of the 1933 spring season in Alberta has been offset to a very marked extent during the past fortnight by the very rapid growth gained by the seeded crops under a spell of fine warm weather, a factor which has brought the whole crop situation almost up to normal, with, of course, the exception that the normal increase in wheat acreage has been replaced by a decrease. This decrease is fairly large in the areas suffering most from backward conditions, and while there is no definite estimate as yet as to the percentage over the entire provincial crop area, it will be fairly substantial.

So far as the seeded acreage is concerned, in spite of the fact that considerable wheat has been put in on stubble land, the entire situation is very satisfactory. General precipitation during April and May has been very good and unusually heavy in spots. Germination in all the crop areas has been very even and the grain now up is showing a healthy growth and color. Early wheat seeding in some areas is above ground as much as twelve inches. One or two points in the south-east would welcome rain now.

Practically all wheat is now seeded in all districts and a large proportion of it above ground. Conditions this year are very favorable for coarse grains and indications from nearly every district is for a substantial increase in these crops. Much of the coarse grain seeding is already completed.

Grasshoppers are hatching rapidly under very warm weather in the southern areas and the poisoning campaign is now in full swing under

## C.G.I.T. Girls' Weekend Camp

On Friday evening two cars and a truck loaded with C.G.I.T. girls and their luggage left for a weekend camping at the Dog Pond. They were fortunate in having perfect weather for the whole weekend.

After the tents were pitched and supper was over, Mrs. Boorman led a vesper service, followed by a bonfire song and story hour.

Early Saturday morning everyone was out for "jerks" and a dip. After breakfast was cleared away came "discussion hour," Mrs. Boorman taking for her topic, "What it Means to be a Christian in the Home" and Miss Black led with "What it Means to be a Christian at School."

While dinner was cooking they met in Council Ring and elected Isabel Pratt as camp president; Grace Loader as chief scribe, assisted by Betty Boorman and Winnie Adhead; and Lorraine Durrer as treasurer.

The afternoon was spent in swimming, hiking and softball.

On Sunday morning after a similar program everyone was ready for Sunday school, Isabel Pratt taking charge.

Before packing, an impressive closing ceremony ended the week's camping trip. The only regret the girls had was that it was all too short and with "backward looks" they started for home.

The girls wish to thank those who so kindly gave their time and service to make this long remembered weekend possible for them.

## Wheat Pool Will Make Payment Of Interest on Bonds

Notification has been received by the provincial government from the Alberta Wheat Pool that arrangements have been made whereby the payment of principal and interest due on September 1st next, amounting to \$452,950 on the Pool's bonds held by the province, will be promptly made.

The Pool issued bonds totalling about \$5,000,000 to the province to cover an issue of a similar amount made by the province to the banks to cover losses on wheat pool over-payments in a stipulated period.

## "Back Street."

Come to "Back Street"—share the tears and fears, the love and laughter, the beauty and glory of Ray—a woman who dared to snatch at the happiness denied her.

Fannie Hurst told this story and Universal has made a picture of it—picture for the millions! The drama is every bit as vivid, as fearless, as honest as the book by the famous authoress!

First place in a man's heart, what is it worth to a woman? Is it worth the secrecy, the concealment, the sacrifice, the pointing finger, the loneliness of a lifetime, society's sneers? Is any man worth it? Fate made Ray the girl she was, but before you condemn her see this great screen achievement.

direction of the provincial field crop branch, with the co-operation of the field service of the federal entomological branch. There will undoubtedly be serious infestation in certain areas but the situation is well in hand. Mixing stations are being established in the municipal units in the areas south from Coronation, Castor and Olds to the international border. No damage from other insects is reported as yet.

## Precipitation Records.

## MARRIED

Miss Joyce Reeves and Mr. Matthew Jackson, of Sundre were quietly married at the Knox United Church on Tuesday June 6th 1933. Rev. A. J. Mitchell performed the ceremony.

## WEEKLY SERMONETTE

"The crowd will feel for you if you fall down occasionally, but it will walk all over you if you lie there and grunt."

## CARD OF THANKS

We wish to thank all those friends and neighbors who so kindly helped during the sickness and death of our dear mother. Also for the many floral tributes.

George Warkenton and her sons and daughters

## NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of THEOBALD DOLL, late of the Town of Didsbury, Farmer, deceased.

Notice is hereby given that all persons having claims on the estate of the said Theobald Doll, who died on the 4th day of December 1932, are required to file with the undersigned Administrator of his Estate by the 8th day of July 1933, a full statement duly verified, of their claims and any securities held by them, and that after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to its knowledge.

Dated this 27th day of May 1933.

THE TRUSTS & GUARANTY CO. Ltd.

Public Administrator,  
270, Eighth Avenue West,  
Calgary.

H. A. HOWARD, Manager.

## NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of MAGDALENA SNYDER, late of Didsbury, Alberta, widow, deceased.

Notice is hereby given that all persons having claims upon the estate of the above named Magdalena Snyder, who died on the 18th day of June 1929, are required to file with the undersigned, Solicitor for the Executors of the Will of the said deceased by the 24th day of July 1933, a full statement duly verified of their claims and of any securities held by them, and that after that date the Executors will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed, or which have been brought to their knowledge.

Dated this 3rd day of June 1933.

W. A. Austin,  
Solicitor for the Executors,  
Didsbury, Alberta.

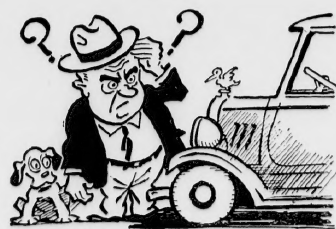

30-Sheet Pads Examination Paper  
10 cents each.—Pioneer Office.

## "Good-Bye Uncle Jock"

Said Vera Fleck, (left) and Lette Teppaz, as they shook hands with Captain R. G. Latta, and left the Canadian Pacific liner Empress of Britain at Father Point, Quebec, to make an aeroplane dash to Montreal on their way to Chicago where they are contestants in the selection of a "Queen" of the Century of Progress Exposition. No matter what the contest results Vera and Lette will carry memories of a brilliant first voyage home with them. The Empress of Britain, one of the world's fastest liners, broke two records for them, and a combination of fast ship, fast plane and fast train gave the two pretty girls the distinction of making the fastest voyages from London and Paris to Chicago ever recorded. They travelled so fast all the way that Miss Teppaz, who landed in Paris, Friday, May 18, found herself breakfasting less than six days later in Chicago, May 25. Miss Fleck's record was from breakfast to breakfast. Canadian Pacific officials arranged every detail of their entire journey which, with the exception of two hours and fifty minutes in the air, used the facilities of that organization.

### Oil Production.

Production of oil in Alberta for April has just been announced by the petroleum division of the lands and mines department as 74,643 barrels, of which 69,447 was naphtha from Turner Valley.

### Swine Survey.

A more effective system of obtaining information on hog population and hog marketings in the province was agreed upon at a conference last week of representatives of the federal livestock branch, the experimental farms, the provincial dept. of agriculture and the University Agricultural College. Alberta has now come to be second only to Ontario in importance in hog production, having marketed in 1932 nearly one-third of Canada's total marketings.

### Mounted Police Anniversary.

The Royal Canadian Mounted Police, formerly the Royal Northwest Mounted, celebrated its diamond jubilee in May, the force being established just sixty years ago. The first post in Alberta was established in 1874 on the site of the present town of Macleod.

### Family Settlement.

Unemployed families to the number of about 110 have been settled on land of their own this spring in the province, through the efforts of the land settlement committee of the province. Most of these have come from Calgary and Edmonton.

### Summer School Again.

The University and department of education have decided to again hold the usual summer session for teachers at the University. The school opens July 3rd. Last year the attendance reached almost to the thousand mark. This year the school will include two courses in supervision, the first having been held last year with fifty registered.

### Women's Farm Week.

The usual women's summer farm week will be held this summer at the Olds School of Agriculture from July 31st to August 4th. The usual meet at the Vermilion School will this year be combined with that of Olds.

### Alberta's Improved Hog Record.

The steady improvement in the quality of Alberta hogs is strongly indicated in a survey recently completed by provincial agricultural officials. The record shows that in 1930 628,955 hogs were marketed from this province, of which 61.3 per cent. reached the top grade as selects. In 1931 the marketings totalled 723,352, of which 7.22 were selects. In 1932 the marketings reached 1,008,452 head, of which 8.36 per cent. were selects. This shows a steady improvement in quality, but the more significant fact is that of the increased number of hogs marketed, a very large percentage falling within the higher grades. In two years the increase in marketings has been 379,517, of which 49,980 head were selects. The increase in the number of selects in 1932 as compared with 1930 is 123 per cent. In 1932 there were 187,837 more bacon hogs marketed from the province than in 1930, an increase of 142 per cent. Over 60 per cent. of the increase of 379,517 hogs marketed in 1932 over 1930, were graded as selects. The volume of selects has increased in volume from 32,269 in 1930 to 63,858 in 1932. The percentage of butchers, or the lowest grade hogs has decreased from 58 per cent. in 1930 to 45.6 per cent. in 1932.

### Uniform Game Laws.

More uniform game laws and game fees for the prairie provinces were urged at a conference of game officials of the three governments at Edmonton last week.

### Debt Adjustment Act in Force.

The new debt adjustment act of the province, passed at the last session, came into force June 1st. The announcement was made by W. Lorce, chairman of the new debt adjustment board just set up.

### Livestock Men Warned.

Serious losses of livestock as a result of the eating of the poisonous weed known as "water hemlock" are occurring in the province, according to Dr. Percy Talbot, provincial veterinarian, who warns all livestock owners to be on the lookout for the weed, which should be destroyed as quickly as possible by grubbing out the roots, drying and burning them. The water hemlock is a tall erect marsh plant growing from 2 to 6 feet high, with stems fairly stout and streaked with purple, bearing a few pale-green and doubly-compound leaves and many quite flat clusters of very small greenish-white flowers. The root consists of a bunch of fleshy tapering projections attached to the root-stocks. This poisonous plant is found in local patches throughout the province, in the foothills and on the prairie always in low wet marshy ground. It occurs along creeks and irrigation ditches, edges of sloughs and lakes, and in low meadowland. The most poisonous parts of the plant are its root stock and roots, but its stems also contain poison, as well as the leaves of the young plants. The poison acts quickly and is deadly.

## IN TEARS WITH PAIN OF RHEUMATISM

"For six weeks," a woman writes "I had rheumatism, mostly in my feet and wrists. In fact, I have been in tears with the pain. Owing to stomach trouble, I could not take any kind of medicine, as it made me feel sick. So a lady said I should try Kruschen Salts. I am very thankful that I did so, for now I feel completely restored. I have not been taking anything else so I must be Kruschen that has relieved me."—Mrs. C.

The six mineral salts of Kruschen have a direct effect upon the whole bloodstream, neutralizing uric acid, which is the recognized cause of rheumatism. They also restore the eliminating organs to proper working order, and so prevent constipation, thereby checking the further formation of uric acid and other body poisons which undermine the health.

## WORLD HAPPENINGS BRIEFLY TOLD

Twelve feet high and weighing two tons, a statue of Christopher Columbus was shipped from Milan to America as the gift of Italy-American to the Chicago World's Fair.

Publishing of names of those in receipt of incomes of \$100,000 per year and more, will not be permitted, Hon. E. N. Rhodes, Minister of Finance, told the House.

Power to raise by way of a loan an amount not exceeding \$750,000,000 will be sought by Hon. E. N. Rhodes, Minister of Finance, in a resolution of which notice has been given.

During the first months of the present crop year ending with March 22, 67,775 bushels of Canadian wheat have gone abroad via United States seaports, said a report issued by the Dominion Bureau of Statistics.

Petitions containing 406,000 names on protest of banning Judge Rutherford's lectures by the Canadian radio broadcasting commission were presented to the House of Commons recently.

Creating what is believed a record in Canadian flying club circles, Walter Ostman has completed tests at Winnipeg for his private pilot's license only 22 days after he took his first instructions. He has completed 10 hours solo flying.

"China, my country, is now in great danger. It is my duty to help save my people and I am going home," said Dr. King Kang-Hu, head of the department of Chinese studies at McGill University, in bidding farewell to a group of Canadian friends at Montreal. Dr. King sailed for China from Vancouver.

Bankers in Montreal confirmed Toronto statements that a reduction of one half of one per cent. in the six per cent. interest rate on bank loans had been put into effect to a varying extent. Question of the reduction is left with the individual banks. It was explained, each bank taking action on individual cases.

## Easy For the Maid

Interpreted Quirly Spelled Word For Benjamin Franklin

Benjamin Franklin was always very keen about the correct spelling of words, and he used to maintain that the test story to read spelling concerned a letter which ran: "Not finding Brown at home I delivered my message to his wife." Mrs. Deborah Franklin, even, could not interpret this, so they appealed for aid to Betty, the chambermaid, who promptly replied: "Y-ella wife what else can it spell?"

Pleasure that isn't shared with an other loses half its power to please.

## When Your Daughter Comes to Womanhood

Give Her Lydia E. Pinkham's Vegetable Compound

Most girls in their teens need a tonic and regulator. Give your daughter Lydia E. Pinkham's Vegetable Compound for the next few months. Teach her how to guard her health at this critical time. When she is a happy, healthy wife and mother she will thank you.

## A Forestry Policy

Saskatchewan Taking Steps To Deal With Drought Conditions

Hon. J. F. Bryant, K.C., Chairman of the Saskatchewan Commission on Conservation and Afforestation, addressed the Canadian Club in Regina recently, when he made many interesting observations regarding the work of the Commission and the development of forestry work by the Department of Natural Resources.

A portion of Mr. Bryant's speech is reproduced as follows:

In the year 1868 the late Archbishop Tache who was thoroughly familiar with this Western country said of that section of Saskatchewan, south of a line drawn between the intersection of the Manitoba boundary with the International boundary and Kerrobert, in a descriptive work of Western Canada, "Here is a desert."

In 1868, Major Emory of the United States Forestry Commission, stated in a report to the United States Government, "The plains of America west of the one-hundredth Meridian are not capable of supporting an agricultural population unless you go far enough south to meet the tropical rains." The one-hundredth Meridian passes roughly through Brandon and a little to the east of Dauphin. When Manitoba was established, the western boundary of Manitoba was placed where it is because it was then thought that the lands to the west were not fit for agriculture.

Experience during the past twenty-five years indicates that these statements are not correct and that southern Saskatchewan, if properly farmed, is one of the finest agricultural areas in the whole world. But in order that they should continue so it will be necessary for us to change our attitude towards the southern Saskatchewan, which is going to be a fertile agricultural area.

In an area where there is an absence of trees, and shortage of rainfall, long continued and steadily blowing winds dry out the soil and retard growth. The frequency of drought conditions in semi-arid regions result in accumulated drought by the drying of the soil. In some regions available records show that rainfall varies; in more than one-half of the years there is less than the normal amount of rainfall. Several years of comparative heavy rainfall are followed by years of comparative light rainfall. In the moist years there are abundant crops and settlement pushes into normally dry regions. Then follows years of drought, crop failure, hardship and abandoned lands in the dry areas. This has been the history of many districts in the western United States.

In order to take stock and to make inventory of the existing conditions, it is necessary in such a way as to afford a basis for intelligently gauging the magnitude of the problem in the future and to study the whole problem with a view to the efficient application of the more effective conservation policies, the Saskatchewan Government appointed a Commission on Conservation and Afforestation.

The duties of the commission are to inquire into climatic conditions as affected by the conservation of water and the absence of presence of trees; to collect all available data and study the question in the light of their experience and remedies taken under similar conditions elsewhere; making recommendations to the provincial authorities for the conservation of water to make such proposals as to afforestation and any other matters as will result in permanently reducing the causes of drought conditions as they now exist in parts of Saskatchewan.

Southwestern Saskatchewan suffered a severe drought in 1917-18-19. A Better Farming Commission was appointed by the Government to study the situation. The Commission reported that after studying fifty years of weather and agricultural records the most encouraging fact was that never before had there been three dry years in succession. Within ten years there have been three dry years in succession more disastrous than any recorded in the records.

While the drought through which we have just passed was one of great severity, it is not the worst that has happened in these western prairie lands. The lake levels were lower than any remembered since 1860, but the settlements in this province in 1890, and as a result there is a general belief that drying is due to extensive cultivation and is an unprecedented condition. Denudation of drying out has been going on in southern Saskatchewan in a progressive way since 1860 with a few exceptions such as the last from 1924 to 1927 when a slight raise in the levels of the lakes took place. Before 1860, the majority of the lakes in southern Alberta and Saskatchewan were lower than they were during the recent drought. Old wagon trails, fence posts and stumps of trees, once to be seen in the bottom of some of the lakes through the shallow water indicate that they were once drier. Late in 1858 there began a drought which lasted for five years and by 1863 all lakes had reached peak level, the highest in the memory of man. Since 1863, there has been a more or less progressive lowering of the water levels. The dryness of the Nineties was not unprecedented. During the latter condition there was apparently comparable. The buffaloes had to abandon their old trails for lack of water, and had new ones. It was

a season of great privation for the Indians and coincided with the last great outbreak of small-pox among the natives.

From every indication we are now entering upon a new Bruchner cycle, a period of plenty of water for a number of years. It is imperative that we should now lay plans to meet the drought conditions which are bound to recur in the future. If we do not, conditions during the next drought will be very much worse than those which we have just experienced.

Science must be brought to the assistance of our farmers and the only way in which we can successfully combat drought conditions is by acquiring accurate knowledge of climatic conditions. We must first get the facts of which the laws of nature are predicted, and in this scientists in the past have been hampered by lack of records that are wide-spread, accurate and sustained through the years. To study these facts the Saskatchewan Commission was named and at the request of the Saskatchewan Commission, Drought Commissioners have recently been appointed in Manitoba and Alberta. It droughts can accurately be predicted, and we believe this can be done, millions of dollars can be saved in not planting crops in areas where there is no hope of success in given years.

In the matter of afforestation, the Drought Commission is studying the programmes of Great Britain, Germany, Sweden, France, Austria, Prussia, United States and several states of the American Union, and of the Province of Ontario.

A great deal of work can be furnished the unemployed in getting out fuel wood. In the United States a campaign has recently been carried on to harvest wood for fuel purposes and thus supply work for the unemployed, and in many localities, local unemployment was solved by cutting wood and setting about to establish community forests. Canada imported six million cords of wood last year at the cost of \$100,000,000. Much of this fuel could be supplied at home if our natural resources were used.

During the past two years there has been an unprecedented cutting of trees for firewood in Manitoba and Saskatchewan. This has given to such an extent that the coal dealers alarmed at the falling off of their business have caused a survey of the situation to be made. In all the Western centres there has been a falling off in the coal used this year, owing to the quantities of cordwood used.

The sale of cordwood has increased rapidly during the winter. This policy, if continued, without replacement of the timber cut over, will be disastrous. If, however, provision is made to replant the trees and to keep replanting and growing trees, the wood will afford an important source of fuel and the community forests will give a good deal of employment.

Municipalities in Sweden and in some other European countries are tax free because the expenses of administration are paid by the proceeds of municipal forests. In Saskatchewan a municipality could plant all municipal and tax-free lands and could in time thus pay off their municipal debts. Sweden gets over One Hundred Million dollars per year from her forests. The whole productive area of Sweden, one of the world's chief exporters of lumber, pulp and paper, is paid for by the government. In 1927, Sweden got an average return of \$4.50 per acre from her forest lands. In time this pay off the country from and revenue from her woods in a year about one and a half million dollars. With a properly planned forestry policy revenues from the forest areas of Saskatchewan would be sufficient to pay off the provincial

Shaving is a real pleasure with a fine quality shaving brush like this one . . . bristles set in rubber . . . a gift you'll surely appreciate and use. Given in exchange for only 5 complete sets of Turret Poker Hands.

One 20c package of Turret Fine Cut will prove the quality and economy of this mellow, cool Virginia cigarette tobacco. You can roll at least 50 cigarettes from one package . . . and cigarettes of sweet Virginia fragrance and flavour . . . supremely satisfying.

## Is Perjury On Increase?

Canadian Judges Hold Different Views On This Subject

Two Canadian judges took occasion recently to discuss the subject of perjury in the courts. The opinion has been prevalent for some time that the making of false statements under oath is on the increase. This view is supported by Justice McGilivray of the Alberta Court of Appeals. He declared in an address that the amount of perjury that is going on in the courts had made a strong impression on him. He found that an oath has not the sanctity which it once had; the fear of eternal damnation for the sin has largely disappeared. When on the bench a few years ago, His Honor the Lieutenant-Governor voiced similar alarm over the extent of false swearing in the courts.

Judge McFadden of Kent County, Ontario, takes an opposite view. He has been quoted by the Border Cities Herald as saying that of a great many of every hundred witnesses are deliberate liars. He asserts that what often might look like deception is only exaggeration and not an intention to deceive.

To many this will seem a too optimistic opinion because it does not coincide with that of a great many other judges. However, it is serious enough and calls for co-operation between the bench and the bar to make the practice of perjury both more difficult and more dangerous—Calgary Herald.

## Was Once Royal Yacht

Former "Corsair" Now Ferry Between Prince Edward Island and Nova Scotia

With vessels little out of winter quarters at Halifax for seasonal services, the most interesting in the region, the "Hochelaga," which plies every summer between Pictou, Prince Edward Island and Charlottetown, Nova Scotia.

The Hochelaga was built at Leith, Scotland, in 1860, for the Crown Prince of Austria, who fired the first shot in the Great War. Known as the "Corsair," she was the prince's private yacht for several years. Later she was sold to J. P. Morgan for his daughter, who holds a yachting master's certificate. The name was changed to the "Watrous."

At the outbreak of the war the yacht was purchased by the Canadian Government for patrol work, and after the war she lay idle for some time until she was sold to the present owner, the Hochelaga Shipping and Trading Company of Halifax.

When used as a yacht the ship was considered the finest of her class afloat. The saloons and cabins were finished in teak and mahogany, pumelled with magnificent heavy silk tapestries. The doors were full length beveled glass. Many of her attractions still may be seen, and they are a source of great interest to travellers.

Umbrellas are to be supplied free of charge to patrons of a movie theatre in Madrid, Spain, in case of sudden rain.

CHAPTER X. Continued.

"That probably means they went southwest," Alan remarked, and his short laugh was not pleasant. "You're natural and say like, but it won't get by with us." We've nailed too many liars in our time. I want to know who this party of yours is where they came from, how they got into this country, how they know their way about in it. I want to know how that pack of rotten pots got into Trader MacMillan's storage shed. I want to know the man who killed Jimmy Montgomery there in the "Midnight Sun." Now get busy.

He clicked the safety on his automatic and brought his elbow up against his side.

Chink Woolley trembled, his knees shook, he wilted. He guessed that this man must be the Baker fellow, the sergeant terrible, whom Meti Andre always mentioned in lowered voice. Those hypnotic gray eyes seemed to be boring through him. That heavy automatic was tilted to make his neck the last. And if he turned King's evidence, he might escape the noose.

It was a strange story that Alan and Bill listened to there on the island in the heart of Many Waters. Eighteen months ago, on a heavy ice floe, the five whites, excluding the half-breed Andre whom they picked up later, had "run a buck" under Jensen's instigation, but were overpowered by the captain and rest of the crew. Flung ashore with the skipper's sulphurous good wishes at bleak Demarcation Point on the Arctic coast, they made their way across the Komanzoffs to the new placer fields in the Kayukuk headwaters. They came too late to get worthwhile claims; and they discovered, too, that "bawking" in the perpetually-frozen subsoil was ever harder work than whaling.

It was Jensen, brooding over their predicament, who conceived the idea that it was easier to find gold which already had been found than to thaw a hole thirty feet down to black sand and bedrock and then maybe get nothing. It was Jensen who allayed their fears and dangled the golden

lure in front of their eyes till their mouths watered and they were ready for anything he planned.

Andre the half-breed was a key into the party like a find into a lock. They were crassly ignorant of the country; they were tyros when it came to travelling, hiding, living in the bush. But Andre the "breed" was business-wise as a weasel and water-wise as a muskrat, and he knew the whole north country from Ross Wellcome to Point Barrow as he knew the palm of his hand.

It was Andre who had brought the party into this strange country, by back rivers and untraversed trails, avoiding all sight of men, so that they seemed to have dropped from the sky. It was Andre who suggested the place of attack on the "Midnight Sun," and the Thud-Azzah as a place to hide in after the swoop and robbery. And it was Andre's sharp-shooting Savage that drilled Jimmy Montgomery through the heart.

Alan Baker breathed a little harshly. He ordered, "Describe that 'breed'." And he added, "So there will be no mistake when I meet him."

Woolley described his metel confederate. Alan nodded curtly. After a few moments' silence, he spoke again: "Now about Trader MacMillan. How did that pack of furs get in his shed?"

"Jensen put it there."

"Why?"

Woolley did not know all the details, but from hints Jensen had dropped he was able to piece the story together pretty well.

Several years ago at Herschel Island, that gathering place for whalers, Indians, traders, Eskimos and Arctic explorers, Jensen had run afoul of Dave MacMillan. He had come ashore from a whaler, hungry for drink and hungry for woman's company after eight months of following the herds. He had found the drink, and in a whiskey haze had started to make rough love to fifteen-year-old Joyce MacMillan.

Dave MacMillan fell upon him. For years now Jensen had nursed his hairy chin reminiscences where MacMillan's hard fist had caught him; and his ears still rang with the derisive jeers of those who saw him dog-whipped down across the swell and over the shingle to the whaler.

He had never forgotten the MacMillan girl nor the incident of that snowy October day. The incident had smoldered in his vengeful soul; and when his party passed the trading post, it had flared out. It was a neat stroke, putting that comparatively worthless bale of furs in the shed of the man who had dog-whipped him. He had counted on the trader discovering them, wondering about them, innocently calling the attention of the police to them, and getting into hot water when he failed to explain how they got there.

The revelation of Dave MacMillan's complete innocence was no surprise to Alan but merely a proof that his and Joyce's instinctive belief had been correct. Now he could know that in buying out of stress he had saved the reputation and possibly the very life of Joyce's father. Under Haskell's tyranny he could never have vindicated Dave. In his own way he had planned, and had fought through to this partial triumph.

Writing down the essential points of the trading store, No one, with hair shimmering in the sun, came running down the path to greet them.

Their shouts at the landing brought no answer from a girl's lips or from old Pence. In some measure prepared, Alan called Joyce's name as he strode into the trading hall. He called but once; he looked but once into her room.

"You say those other men went hunting. When are you expecting them back?"

Woolley did not know. He seemed strangely hesitant, fidgeting uneasily; he would glance up at Alan and then away, as though he had something to tell but was afraid to tell it.

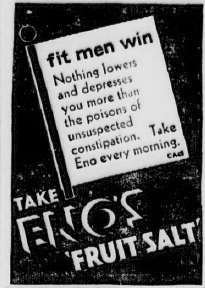

Alan saw his agitation. He demanded, "What're you stumbling over? Cooking up some lie?"

The man wetted his dry twitching lips. "You'll not kill me if I tell you the truth, would you want? You may be cut back here day on Alaska in time to save a girl."

"On the Alaska, in time to save the girl?" Alan jerked as though a bullet had smug past his throat. His face went suddenly pale. "You mean Joyce MacMillan? What about her?"

Tell it, or by G-d I'll choke it out of you! Open up!

What do you mean 'in time to save

her? 'I'll not kill you if you tell.' Woolley stammered: "They went down de Alaska to get her. It's Jensen's idea. He's a'min' to take her along on de escape and keep her for himself. He's all burnin' about dat girl."

His shaky voice trailed off. He shrank back in quivering dread from the expression that had come into Baker's eyes.

For a little while, a few moments only, Alan stared unseeing out across the waters of the great blue lake. To wait here, until the barclite came back? Not that; they'd be three days and nights on the return trip.

Joyce would be helpless all that time, in the power of the man who was "all burnin' about dat girl." They had left only thirty-four hours ago. He stood a chance of beating them to the trading post.

Whirling on Bill he ordered: "You stay here. You attend to this end of it. Buzzard and I will attend to the other. We'll go after them in the plane. There's a chance we can get to the trading post before they do. You'll have a ride extra. They're

left; weren't here when that pack came! Went after caribou! Almost too good to be true!"

Alan grasped the note and read. It was in Joyce's fine swift handwriting. No doubt about that. It stated that she and old Pence had gone to Black Timber lake thirty miles north to get caribou and would be back in two days, in case a patrol happened past.

Alan grasped the note for half a minute. His face did not relax.

"Yes, too good to be true," he commented slowly. "Don't you see?—this note is addressed to Constable Larry Young. Why did Joyce do that? She knows Larry is not patrolling, knows he is at Endurance all shot up; and she knows we know it. Don't you see what she tried to do? It was her only way of telling us that something was wrong. She had to write this note as they dictated it, but she tricked them."

"It's so, it's so," Buzzard agreed. "She tricked them under their very eyes, and counted on us to understand."

From room to room—Joyce's room, her father's, the kitchen, the trading hall, the ground outside—Alan went carefully, noting signs, reading the story of what had happened.

Nothing about the post was disturbed. There were no signs of a struggle or fight. Joyce's light rifle still hung on a peg in her room. His barrel inside was clean and shiny; the weapon had not been fired. Joyce must have been surprised and overpowered without a chance to fight back.

At the clearing edge Alan found a trampled spot in a thicket where five men had lain and watched. Kneeling down, examining the broken twigs, the wilted leaves, the crushed nettles, he read that all this had happened three hours ago and that the criminals were thirty or forty miles up the spruce-buried Alaska, with Joyce their prisoner.

(To Be Continued.)

"Whosoever thy hand findeth to do, do it with thy might." Ecclesiastes 9:10.

"For even the Son of Man came not to be ministered unto, but to minister."—Mark 9:35.

A child's kiss—Set on thy sighing lips, shall make thee glad!

A poor man served by thee shall make thee rich!

A sick man helped by thee shall make thee strong!

Thou shalt be served thyself by every sense Of service which thou renderest.

A man is relieved and gay when he has put his heart into his work and done his best; but what he has said or done otherwise shall give him no peace.—R. W. Emerson.

Be diligent after thy power to do deeds of love. Think nothing too little, nothing too low, to do lovingly for the sake of God. Vult, if thou mayest, the sick, relieve the poor, forego thyself and thine own ways for love; and He whom in them thou lovest, to whom in them thou ministerest, will own thy love and will pour His own love into thee.—E. D. Pusey.

**Must Disclose Transactions**

**Denand For Full Information From Brokers Is Legal**

Brokers and financial institutions will be required to make a disclosure of all bond transactions of other purchase or sale, switches or changes from taxable to non-taxable issues or otherwise, that have been effected since the budget came down, according to the department of national revenue.

The purpose is to have a full and complete disclosure of all dividend and bond interest income in the income tax returns of all taxpayers. The department states that under the general provisions of the income tax Act, there exists legal authority for demanding this disclosure from brokers and financial houses.

The Orilla News Letter was forty-nine years old the other day.

## The Automobile Responsibility Act

Comes into Effect on June 1st.

This act states that if you have an accident for which you  
are responsible in any degree, and as a result judgment is  
rendered against you, your license to drive will be suspended  
until such time as the judgment is satisfied and evidence is  
furnished of your ability to assume the payment of future  
damages that might be imposed upon you.

Every responsible automobile owner will desire  
to purchase "insurance."

### Noted Speaker.

BISHOP S. P. SPRENG.

Bishop S. P. Spreng, of Naperville,  
Illinois, who was to have conducted  
two weeks' services at Zion Evangelical  
Church last summer, but was  
taken sick while enroute so that the  
services were cancelled, will speak  
in the church each evening except  
Saturday commencing Wednesday  
June 14th and continuing until June  
25th. Bishop Spreng is one of the  
foremost preachers of America.

### Burnside Notes.

Don't forget the picnic at Lone  
Pine Hall on Friday June 9th.

Miss Zeok, of Sunnyslope spent  
Wednesday with Miss Alberta Metz.

Mr. Cecil Cipperry spent Sunday  
with Mr. and Mrs. Malloch.

Mr. Percy Saunders was a visitor  
to Calgary on Monday.

Lone Pine W.L. will meet at the  
home of Mrs. W. Lyons on Thursday  
June 15th.

Mr. and Mrs. Chris Elret and son  
spent Monday and Tuesday at Cal-  
gary and Turner Valley.

Mr. Harold Metz, Mr. Jimmie  
Crowell and sister, of Mayton spent  
Sunday with Mr. George Metz.

Mrs. Agnes Patterson and sons  
spent Sunday with Mr. and Mrs.  
Albert Ardenison.

Mr. and Mrs. N. Eckel, Miss Sadie  
McLean and Mr. Fred Dell spent  
Tuesday in Calgary.

Mr. and Mrs. Walter Mc Culloch  
and Mr. Jack Elliott spent the week-  
end in High River.

Lloyd and Cecil Cipperry, Leon  
Dell, Harold and Alf Thompson and  
Charles Morley left Monday morning  
for the bush to bring out poles.

The Sunday school convention  
which has formerly been held at  
Mayton will be held at Lone Pine  
Hall on Sunday June 25th.

### Westcott Notes.

The monthly meeting of Westcott  
W.L. was held at the home of Mrs.  
Ed. Owens on Thursday May 25th.  
The topic for the day was "Education  
and Better Schools" very ably  
given by Mrs. S. Owens. Miss  
Powers favored the members with a  
few piano selections, after which  
Mrs. Ed. Owens gave a splendid  
report of the recent convention. The  
meeting closed with the singing of  
the National Anthem and lunch  
was served.

### RUGBY NOTES

Rugby W.L. met at the home of  
Mrs. G. Young for the June meeting  
with an attendance of 27 members  
and visitors. An excellent report of  
the recent convention was given by  
Mrs. Evans. Two prizes came to  
Rugby from the A.W.L. handicrafts  
competition, Mrs. Shannon receiving  
2nd prize for knitted gloves and  
Mrs. Summers 3rd prize for patching.  
Current Events were taken by Mrs.  
Clarke. By no means the least  
important part of the afternoon's  
program was the demonstration of  
pancakes and waffles made from  
Rosebud Pancake Flour. Mr. Weber  
afterwards giving a short but inter-  
esting talk on "Canadian Industries."  
The next meeting will be in the  
form of a social afternoon at the  
Howeod home the first Thursday  
in July.

### LOCAL & GENERAL

Mr. Abo Snyder shipped two  
carloads of steers this week.

Miss M. Bell is visiting at Innis-  
fail this week.

Mr. E. G. Ranton made trip to  
Calgary on business Tuesday.

Mr. W. Thurlow is taking advan-  
tage of the C.P.R. excursions and is  
visiting relatives at London, Ont.

Miss Margaret Ranton, of Lacombe  
is spending her vacation at her  
home here.

Messrs. E. Brado and John Brado  
left for Galt, Ontario this week,  
where they will visit friends for a  
few weeks.

Mrs. Morgan, Mrs. Evans, Mrs.  
D. Hughes and Mrs. C. Wrightson  
attended the Eastern Star convention  
held at Banff last week.

We are pleased to report that Mrs.  
August Fisher, who is in the Calgary  
Holy Cross Hospital is progressing  
very favorably.

A ring for the woman he married  
—a key for the woman he loved!  
See "Back Street" at the Didsbury  
Opera House on Monday evening  
only next week.

The "Didsbury Canaries" softball  
team has entered the provincial  
junior playoffs. Didsbury has a  
snappy team and should make a  
good showing.

W. W. Gillrie, Jack Fleury, Milt  
Ford and C. R. Ford were among the  
ninnyrods who went west last weekend.  
They got a few fish and lots of bites  
(no-quit). They report that Ross  
landed a ling.

"Out All Night" at the Didsbury  
Opera House on Thursday evening  
only next week. Here they are  
again—those gay lovebirds—Slim  
Summerville and Zasu Pitts trying to  
find a little peace on their honey-  
moon.

There will be no preaching service  
in the morning at Zion Evangelical  
Church on Sunday. The Sunday  
school will meet at 11:30 as usual.  
In the evening the Salvation Army  
Band from Calgary will have charge  
of the service.

Battling in a hell of ice and snow!  
Struggling for life on the loftiest  
peak! The smiling fighter—the  
woman and the other man! The  
onion ready to dynamite an army  
to perdition! Don't miss seeing  
"The Doomed Battalion" at the  
Opera House tonight (Thursday).

N. A. Guyman, ("Banjo Daddy")  
musician and entertainer will give  
a concert in the Leuzier Block on  
Saturday June 10th at 8:30 p.m.  
Also at Westcott school on Thursday  
June 15th. Admission to concert:  
25c. and 10c.

A meeting of the directors of the  
Didsbury Agricultural Society will  
be held at C. E. Reiber's office on  
Saturday afternoon at 2 o'clock.  
All the directors are requested to be  
present, as the program for summer  
activities will be discussed.

Light refreshments served by the  
St. Cyrin's W. A. in the Leuzier  
Block on Saturday June 17th from  
8 p.m. to 11:30 p.m. Pork and  
beans, hot dogs, coffee and pie.  
Anything 5 cents! Come and get  
it!

Postmaster Morgan is attending  
the Canadian Postmasters' Associa-  
tion annual convention at London,  
Ontario as delegate from the Alberta  
Postmasters' Association, of which he  
is president. He will also attend  
the Ontario Postmasters' Association  
convention.

Mr. and Mrs. M. Weber left by  
car on Tuesday for Winnipeg, where  
they will introduce the Rosebud  
Pancake Flour to the merchants of  
Manitoba. They intend exhibiting  
the Rosebud products at Brandon  
Fair, World's Grain Show at Regina  
and the Saskatoon Fair. They ex-  
pect to be away until the middle of  
August.

A wedding of interest to Didsbury  
people took place at Three Hills on  
Friday, when Miss Kathleen Kal-  
leisch was married to Mr. Frank  
McLean, of Drumheller. Didsbury  
people who attended were Mr. and  
Mrs. G. H. Liesener, Mr. and Mrs.  
W. G. Liesener, Dr. and Mrs. H. C.  
Liesener, Mr. and Mrs. J. V. Berscht,  
Miss Evelyn Liesener, Miss Ruth  
Liesener, Miss Orpha Liesener and  
Messrs. Howard Halliday, Russell  
Berscht and Leonard Berscht.
